---

### Experience

---

#### Freelancer.com / Freelancer

NOV 2014 - PRESENT, Moscow, Russia

I've started to work as freelancer to get more practice experience in web development, to try new technologies and tools, to improve English language skills. Now it's time to move forward and to get dream work in a so amazing country as Netherlands.

There you could find more than 100 references about my real projects

#### Solvelight Robotics LLC / Web Developer(Remote)

DEC 2013 - PRESENT, Staten Island, New York, United States

I've created solvelight.com e-commerce website from scratch. It was built with ExpressionEngine 2 CMS that based on Codeigniter framework. The website has been integrated with custom CRM system and warehouse system, Mailchimp newsletter, preferred US payment systems etc. I own 20% of this company.

### **MIAP LLC / Web Developer**

JAN 2011 - NOV 2014, Moscow, Russia

MIAP is an ordinary non-IT company in Moscow. I've started to work there to get some experience when I still was studying on 4th course in the University. I was creating websites for this company, creating branding, managing exhibitions, ordering PC components to build PCs from it and install necessary software on it, managing internal and external servers(based on Windows and Linux) and network, even installing secure cams in the company's office and warehouse. Mostly I was web-developer there.

Our last project was huge database of electronic parts  
<https://optochip.org/>

I'm still managing their websites and SEO.

---

## **Education**

---

## Notes

---

I'm ready to relocate as soon as MVV will be ready.

I'm married almost 7 years. We are waiting our first baby(boy) at October. I have a cat(Maine Coon, US cat breed).

I don't need any additional services to migrate to the NL(except visa) like appartement, hotel room, flying tickets, taxis etc.

My favorite city in the NL is The Hague but I know that IT vacancies mostly in the Amsterdam and it is fine.

I have local friends and alumnus in the NL.

I'm experienced migrant because I already migrated once from Uzbekistan(where are was born) to Russia in 2006.
